**SCWorx Continues to Expand with the Addition of a \$1.25 million contract with a #1 Ranked Healthcare Provider**

NEW YORK--(BUSINESS WIRE)—April 1, 2019 - SCWorx Corp (NASDAQ: WORX), a leading data management platform in the healthcare industry, announced today the signing of a new agreement with a highly respected single stand-alone academic health system located in the northeast. The agreement is for a 5-year term and has a value of \$1,125,000. Initially, SCWorx is licensing this healthcare provider its suite of automated data management solutions and expects the relationship to expand over the next twelve (12) to eighteen (18) months to include its full complement of closed-loop margin-improvement solutions and indexing analytics.

“We continue to experience broad adoption of our proprietary content delivery platform that enables hospitals to better manage all aspects of their business via real-time synchronization and data repair of the hospital’s core enterprise-wide management systems. This Provider, ranked #1 by U.S. News and World Report, is another great addition to our customer base,” said Marc Schessel, founder and Chief Executive Officer at SCWorx. “We are experiencing accelerated customer acceptance across a wide swathe of the Provider markets. These diverse set of Providers, communicating in a common vernacular in our collaborative cloud-based environment, are providing SCWorx the critical mass necessary to begin, ahead of schedule, developing new and advanced processes and methodologies that I believe will have a long and lasting effect on the Industry – ultimately strengthening the hospital markets by reducing the cost of care for members while at the same time enhancing their margins and clinical outcomes.”

The Company does not expect to incur any significant additional overhead resulting from this contract and anticipates procuring new contracts for its software by numerous other healthcare providers in the foreseeable future.
